The fifth child has been born to Mr. and Mrs. George Gould. This is eminently correct. The more George Gould goes into the heir business the better it will be for the country.

The result in the selection of delegates to the St. Louis convention in Oklahoma might have been different M Your Uncle Cyrus had remained

away. And it might have not Peffer is anxious to have the Cleveland bond deals investigated. David Hill is not, and he proceeded to sit down on Peffer when the old man wanted it voted upon. There is one KEEP THE DEMOCRATS DOWN.

Wherever the voter of Wichita finds a Democratic candidate's head this year he should hit it. For, he may rest assured, tat head is put up by and for the express use of local Democratic

The nation is supremely disgusted with the Democratic party, disgusted with Cleveland and his emasculated policy of puerility and poverty-disgusted with Democratic imbecility in the department of the treasury, in the department of agriculture, in the de partment of the interior-disgusted with the endless sale of bonds to foreign syndicates-disgusted with a nerveless vascillating foreign policy as well as a ruinous and pauperizing domestic record.

Cleveland and all his administration may appear a great success to the average federal appointee who has to be appointed again, but in the eyes of the scenes trembling in anticipation of the encore which Kansas ought to give people it is not a success, and consequently there is an attempt by the Democratic bosses to hide their little schemes under non-partisan movements. This is not true of Wichita alone. There are non-partisan tickets not only in Wichlia and in Kansas; they can be found this year in Ohio, in Indiana, in Illinois, in Missouri, and in Oklahoma, and in every case the non-partisan tickets are the sly manipulation of the Iocal Democratic bosses, the pets of the papers which are friendly to Grover Cleveland and the favorites of the Grover Cleveland postmasters in every instance.

The office-seeking Democrat, asham A subscriber writes to suggest that ed and abashed at the infomaus misrule probably the reason governments seeds of his party, has, in fear and trembling do not grow is that they are planted placed these non-partisan tickets in the field, hoping by this ancient political trick to bamboozle enough Repub licans to win.

The Republican who will be bam boozled by any such Democratic fed eral appointee, Grover Cleveland worshiper scheme is a very short-sighted A Philadelphia scientist holds that all Republican. The men who are urging him to vote those non-partisan tickets are men manipulated by other men whose paunches are full of plums given them by his pot-bellied majesty in Washington. The very papers which are supporting those non-partisan candidates, in Wichita, in Ohio, in Illinois and the other states, are the very same papers that will this fall be asking the voters to vote for Grover Cleveland for a third term. The very men they are asked to support now will be moving heaven and earth within six months to foist upon this country again this bondissuing, deficit-accruing, old soldierrobbing, tariff-juggling prosperity-killing administration that we now have Will the advise of these men and these The Oklahoma Republicans satisfied papers be good then? Will the advice which Dennis Flynn stands occupies office-holders in the fall of 1896 that Cleveland is a grand good man, better than Jefferson, better than Washington, better than Lincoln, that Cleveland's administration has been a boon to this country and his acts those of a righteous and honest man be accepted as good horse sense or idiotic driveling

by the average voter? And if their advice is poor in the fall of 1896, is it not likely that it is poor in the spring of 1806? In short does anyone think that the non-partisan candidates are not manipulated by the Democratic bosses? And does anyo pretend to say that the "non-partisan" Democratic Cleveland Democrats, now The time may come when the world candidates in the city of Wichita, are

candidates? There are two tickets in the field. ed is he who both his cause just." demanding that all debts shall be paid in the value of the original loan, whether they be public or private.

The public writer or speaker who does not comprehend that the dollar of oday, under an enforced single standard, is twice as valuable, has twice the purchasing power that it had even ten years ago, or in other words, who does not see that all other values, as measured by the single standard, have product of either the farm or factory, is roo dumb to talk to the people.

IT IS WELL TO BE HONEST.

The fact cited by the Eagle that the national Republican party had its origin in an effort to nullify law, that its ighest inspiration came of open defiance to solemn statutory enactments, cems to have stirred up quite a breeze n certain quarters. "Let the Jades wince; our withers are unwrung." Some of these gentlemen will know more when they have unlearned somethings. John says that in affirmation of the high priests' charges against Christ that the Jews cried out, "We have a law, and by our law He ought to die," That cry has been the justification of injustice and persecution of all ages, and he who fails to admit it is a biggs.

It was civil'law" that cast the three Hebrews into the flery furnace; that consigned Daniel to the lions' den; that put to death the apostles; that gave to the wild beasts the early Christians; that clothed with authority the horrors of the inquisition; that burned Huss and Jerome and tortured and put to death millions of martyrs in the Dark Ages; that whipped and banished and hanged Quakers and Baptists in New England and Virginia. The burthens and the wrongs of the ages have been 'laws." In this country of "life, liberty, and the pursuit of happiness," a ountry whose founders, in rebelling against unjust laws, held that only such laws as were necessary to protect life and property should be enacted, this country that boasts continually its freedom of conscience, Its equities and righteousness, its greatest wrongs are its unjust laws. The burthens of to day, the inequalities and the injuries out of which has come much of the vice of the times, are because of unrighteous laws, laws enacted at the behest of the powerful and in the interest of class and combine as against the individual. Very much of the financial ruin and disaster of the past four years, of the present material depression, of paralyzed industry and collapsed values are

traceable to legislative enactments. What this country needs is honest men, and that demand includes the editorial professional as well as the poiitician, the law-maker and the member of the legally protected corporation. God ordained civil government for men and of men, but a righteous government is impossible without honest men, Law doesn't make right, but it should conserve only the right. "Men constitute the state," but the individual man is accountable and must give an account of himself. Laws cannot take the place of truth and honesty, but they should uphold these, and these only. The poet Lowell oddly but forcibly set forth this individual responsibility

thus: An' go stick a feller thru Gov'ment aint to answer for God'il send the bill to you. ent aint to answer for it,

The editor who because of party shackles, patronage or preferment falls public any better than the Republican a coward not only but unworthy the responsibilities he assumes.

INTERNATIONAL ARBITRATION

between the United States and Great Britain is to be held in Washington on April 22. The purpose of the conference, according to the call, is "to express the general conviction that such a system of arbitration should be speedily provided for by the proper authorities, and with the most compreshrunken one-half, not excepting the hensive application practicable." The movement is confined to Great Britain because it "seems wise to concentrate our immediate efforts upon the attainment of a permanent system between the two great English- speaking peoples," but the members of the conference are not to be regarded as unconcerned about the wider application of the principle involved. Among the signers of the call are the chief justice of the United States supreme court, General Miles, the commander of the army: Cardinal Gibbons, and many others distinguished in every walk of life. It is proposed that the conference shall contain representatives of every state and territory in the Union, irrespective of party and creed, the combined membership of the two houses of congress being taken as a general basis of numbers and apportionment. The government of the United States, by repeated acts and declarations, has appeared before the world as an advocate of international arbitration, and the signers of the call for the conference rightly say that "patriotism, philanthropy, statesmanship and religion have spoken as with one voice in favor" of this method of settling international differences.

HOW DEEP IS THE SEA?

The deepest places ever found in the cean were recently sounded by the British steamer Penguin, while going from the Tones Islands to New Zenland. At one point the extreme depth of 30,390 feet was reached. That is about 1,900 feet more than the height of the loftlest mountain ever measured. above the level of the sea.

the ocean is almost exactly a half-way men. mark between the highest peaks of the Himalayas and the lowest spots in the bed of the Pacific. It is shown, also, that the deepest places in the sea are like mountains reversed in being sharpthey are found quite close to land, just | become disgraceful and injurious. as there are very high mountain ranges within a short distance of the sea. This In conjunction renders the earth's crust | majority of the great temperance workthinner by four or five miles along such | ers of the world.-Atchison Globe, a line than in other places, and so scientists tell us that it is because of this weakness in the earth's crust that causes earthquakes to be so frequently felt along that coast.

NEW YORK FEELS THE LOSS.

The growing grain trade by way of the Gulf ports is viewed with an evident feeling of alarm in New York, and not without good reason. The diversame month last year, and February tactics before.

must come off. School children who have a high sense of honor, and parents who have the welfare of their children at heart will approve the recent decision of the supreme court of Massachusetts, that a school teacher has no right to require a pupil to tell tales on a companion Such a decision is certainly in the interest of honor and morality, whatever the teachers who try to promote treachery among their pupils may think about it. The boys or girls who are trained in school to be sples and informers will, when they reach adult life, from force of habit be pests, instead of useful members of society. They will be long to that pernicious element made up of gossips, seandal-mongers, breeders and purveyors of hate, and jeniousy always busy for evil-never for good.

WHAT THE BISHOP MEANT.

Bishop Andrews is reported as saying at Wichtta that ministers of the Metho dist church should not pay any attention o the temperance question

The bishop mount that ministers should of pay any attention to the quarrels over the temperance question. Many Methodist ministers pay so much attention to the temperance question that they are reless in their work for religion.

The different methods of handling the emperance question have resulted in a quarrel over the subject that has done more harm than good. All men believe in temperance including those who drink too It seems, therefore, that the level of | did not navise his sous to be temperance | Strip, when they die or get married.

Hishop Andrews will be misrepresented it should be remembered that there is no question of his honesty and sincerity. Blanco Andrews is a collectal figure among temperance men, but he is a man ly sunken below the bottom of the of experience and intelligence, and knows cean near them. In some instance | that quarrels over the liquor question have

tion, and not over temperance. many Kansas men do not believe that prostate of facts occurs along the Pacific hibition is an effective temperance meacoast in California. The result of sure. Bishop Andrews himself is of this such an upheaval and deep depression opinion, and as much may be said of a

A FEW REMARKS.

The Iola Register devotes about a olumn and a half of its last issue to a little serious talk" over the election of M. M. Murdock as one of the delegates-atlarge at the Wichita convention

As among one of the first papers of the state to suggest his name for that posttion, we want to be heard for a moment-Agreeing in the main with the proposition that Murdock has done many that he should not have done; said (writsion of the trade in corn exports has teny many things that would have been been rapid and there is no telling where | better left unwritten, we are ret not conit will stop.
